TECHNOLOGIES

Nilfisk-ALTO AERO

– With the new AERO you get high performance in a small package with a huge working capacity and low working sound level.

▲ AERO 25

▲ AERO 20 INOX

▲ AERO 20

On the Nilfisk-ALTO AERO the exclusive Push&Clean semi-automatic filter cleaning system is featured on all machines. Lightweight and easy to transport, the AERO also offers a choice of plastic or stainless steel corrosion-proof containers in 20 and 25 liter capacities. Some models feature Automatic On/Off.

With the Nilfisk-ALTO AERO you get high performance in a compact package, with a huge working capacity and a low working sound level.

The complete range is suitable for picking up Wet & Dry debris around your home, car, workshop or hobby.

The -11 and -21 models are equipped with a socket where you can connect your power tools, and the -21 models have Automatic On/Off, so the AERO is controlled by your power tool.

The new Fleece Filter Bag system allows you to pick up moist debris without ruining the filter bag.

And to make it easy to move your AERO, it's equipped with a special "sill slider" in the front, to guide your machine smoothly over door sills or other uneven surfaces.

The AERO range is delivered with useful accessories, so you can start right away.
