# The Polivac Gas 38" has the muscle and grunt to get the job done ...fast!

Designed specially for shopping centres, supermarkets and large areas the Gas 38" is 'the productivity machine'.

Dual 50 cm overlapping pads give a huge, flawless burnishing path.

## Contour-following system for an even finish

Counter-rotating 'Jackaroo' pads, combined with the 'flexible' pad holder and pulley system means both pads constantly follow the contours of the floor – giving an exceptionally smooth and even finish.

## The complete dust control system for dust-free floors

Polivac's 'floating skirt' and Total Dust Control Vacuum System traps all polishing dust for a beautiful finish.

## Big! ...and beautifully balanced

Large counter-rotating pads and the offset, rear-mounted engine drive the Gas 38" with perfect balance.

Operators simply guide the machine as it's self-propulsion system glides the Gas 38 over the floor. No weight or strain on shoulders, backs or arms.

## Simply designed to be simply reliable ...and serviced faster

You can trust Kohler power.

**KOHLER** Relentless Power. Legendary Performance.

Gas engine reliability can be a sore point – that's why we chose the proven technology and reliability of the 20 hp (14.9 kw) motor.

Push-button, electric start from the longlife 12 volt sealed, maintenance-free battery fires up even in the coldest conditions.

The tilt base makes fitting of pads and servicing a breeze. Easy access to belts, drive pulleys and the vacuum inlet. Reduced labour service costs. Longer life.

## Reinforced, powder-coated steel body is easy to clean ...and easy on the eyes

The Gas 38's grey finish looks good on any site. Heavy-duty, non-marking bumper and skirt protects walls, fittings and the machine too!

## TECHNICAL SPECIFICATIONS

MODEL	'GAS 38'
MOTOR	Kohler 14.9 kw (20 hp)
DRIVE PAD SPEED	1800 rpm
PAD PRESSURE	10 kg (22 lbs)
VACUUM	Single stage, active centrifugal vacuum with steel impeller
BATTERY	12 volt, 33 amp hour, wet, sealed, long life
DRIVE	Belts and pulleys
GAS BOTTLE	9 kg (Optional extra)
DIMENSIONS	140 cm (55.1") long x 112 cm (44.1") wide x 90 cm (35.4") high
SHIPPING WEIGHT	170 kg (including packing) Machine weight 140 kg
FINISH	Industrial enamel, powder-coated
WARRANTY	1 year on motor and parts
